**Subject:** Work at home tasks completed 5/17/2019

Hello Barbara,

Here is a list of work at home activities conducted today, 5/17/2019:

- Responded to Christy Camp regarding Cleanup Complete, and explained the difference between CA900 and CA999.
- Saved the CC EI form for Davis Monthan Airforce Base from Anthony Leverock in the appropriate folders, and entered the information in the EI tracking spreadsheet.
- Sent message to Mark, Patrick, and Steve regarding vapor mitigation system for Building A at former Tanklage site.
- Reviewed and took notes on the Site Investigation Report for Wilmington Marine Services. Of particular interest was the perched aquifer referenced in the 1994 report in the bilge tank storage area.
- Sent Patrick Wilson an email indicating issues at Wilmington, including the concern about integrity of retaining wall if removal of PCBs in soil were to take place.
- Continued reviewing analytical laboratory data in appendices, and checked data against tables.

Thanks!

.....
